Sister Vera, we are here to honor you at your Grand Reception
And what we are going to do you have no conception

1. Wisconsin is known for it's dairy and cheese
So we will prepare the table and hope you'll be pleased

2. For lunches and snacks you can serve a whole brick
Cut into slices either very thin or thick

3. Then if you prefer the cheese that is mild
4. To serve the whole family even the child

It's creamy and smoothe like your beautiful complexion
5. And those pretty brown eyes that radiates your affection

Now this kind of cheese is just a little nippy
6. And if you eat too much it might make you dippy

Here is the roueefott, with the mold here and there
7. It has to be good to win at the fair

8. This cheese is Limburger, and say ! it's a treat
If you can get it past your nose long enough to eat

9. Those are the ones tha have a more stable factor
Like you with your quick mind and superlative character

10. Now for the dessert we bring you this cheddar
To serve with apple pie there is nothing better

11. While you stood here with your smile of sunshine
We prepared the table all ready to dine

12. Now it is about time that we recapitulate
The work in our chapter you certainly did facilitate

13. You were initiated when I was Matron back in 44
The freindliness that you distribute is what we adore

14. You were Sister Mary's Electa, that was your first station
You did excellent work and won our admiration

15. You were elected to the North because we loved you best
When the South was made vacant you were put into the West

16. You served two years prior to being Worthy Matron
And you chose brother Art Jacot for your Worthy Patron

17. You were successful ruling very successful ruling the throng
And your presence has lingered like a favorite song

each place chess on table in front of Vera
